ANDRE GUNUS Hotel Windsor Santiago, Chile October 9, 1962

Dear Thacher and GeeGee,

Long time since I heard from you, essentially since before your Europe trip during the summer except for a short note about the Swiss affair and a reference to Gee Gee in Yugoslavia which I did not understand. Unfortunately hial forwarded from Caracas to Lima never reached me- nor that written by there in Venezuela to others in Peru for reasons unknown. So a letter of ours or more may have gone astray. If so, have y u copy? I wrote a long letter to each of you from Caracas in July and some bits and peices at other times. To Switz and to Yugos.

Spent 5 weeks in Peru and learned more than maybe in any other time except in uba. Unfortuantely the more I learn the more discouraged I get about the situation and its possiblities in Latin "merica. But the more convinced that a revolutionery break is the only possibility, Only I sont see where that is goigg to come from. On the contrary, I excpect all sorts of right wing movements in Lat Am. One day I amy write why.etc.In my Caracas letter I wrote about how I am learning alittel about imperialism. Am still learning bits and peices. But more impotant, I am beginning to (beleive that I)see that and in part how the imperialist relationship between the US and the metroole in gen ral one the one side and this or that plcae in Africa and Laitn America on the other is the primary key to the peoblem of underdevelopment- and currently indeed the opposite of development- in the se countries. And I am beginning to learn something about how economic, socia.l, political, cutural forms of elations between them interact to support oneantother to maintain the satur 400 of the funadmanrtal relatunshing and thereby to prevent Economic development in the dependent countries. And I have finally worked myself up a topic for a book which I think worth writing- analysing this relatinship and changes in its forms over the past 5 centuries between the Europena-american metorpole nd the african, latinmariscan, and maybe asian metropole. In part an attempt to see the relationship from the peripebry rather than f om the metropole it eif as does even Lenin et al when discussing imperialism. I suppose going to Leipzig would give me a good opportunity to write such a book if I dint et sidetrached there or if I dont learn toomuch about the impossiblity of riting such a work, Meantime my other possibilities remain C araces and Lima, for from 'uba I have never heard again. I will try the latte again from here since thile has diplomatic relations. I have not yet gottne to Brazil as I hoped to investigate possiblities there mostly because I am urrently using- and I suppose and hope not misusing- your money for not xactly prfoessional ends, that is getting to know a girl.Using it in the ense that it is keeping me in while langer than - would otherwise have stayed.

I try to read bits and peices about the electoral campaign in the US and to glean out somet ing about the political state of affiars. What I read tastes ore rightwing than ever, even more than in the days of McCarthy in that I have the feeling that the whole political center of gravity has shifted to the right and the debtes now center around that. How do you judge the thing? Can you send me state encode the South of send to reference to things that I again be well to get in libraries or bookshops or magazines here?

And what are you all doing? Whats with "the paper"? And Gee Gee's doctoral program? and Yugoslavia? And other matters? and Geroge G_rbner? and the bomb?

Write me here now and use Nancy- 36 Bacon S'r. Waltham 54, Mass as a general ddress for forwarding if you dont write me soon after having received my

ddress- so stuff deesnt have to be sent form one lat am place to other.

love, g
